

The FAA Safety Team presents:

The WINGS Program - A Life Saver!

Event Details

Tue, Jul 24, 2012 - 7:00 pm
CCBC Aviation Sciences Center
125 Cessna Drive
Beaver Falls, PA 15010

Contact: Henrik Vejlstrup
(412) 886-2580 ext. 206
henrik.vejlstrup@faa.gov

Select #: EA0345282
FPM Carl Henrik Grove Vejlstrup

Attendees at this informative safety briefing will learn how important a recurrent training program can be to every pilot and how to easily navigate the FAA's Pilot Proficiency Program (WINGS) on the FAASafety.gov web site. By understanding just a few simple concepts, the online program will be completely demystified and your participation will reduce your risk and increase the level of safety in your aviation operations. This safety briefing will also include an orientation of NextGen system, which represents the future of aviation. Don't miss it!

Directions: Conference room. Please see map link in "Additional Seminar Information" section below.

A message from the National FAASafety Team Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?
